

The DoD IAC provides expert research and analysis services through integrated Scientific and Technical Information (STI) development and dissemination, studies and analysis, and other unique scientific and technical activities to advance DoD's warfighting capabilities.

### Objectives:

- Provide for the rapid, efficient, and low-cost acquisition of the full range of R&D services for the DoD research and acquisition community using industry leaders in their fields
- Draw from and build on the existing DoD technical knowledge base held by DTIC and in turn add to that knowledge base through the development and delivery of STI resulting from R&D and other R&D-related analytical services
- Conduct and/or support a wide range of studies, evaluations, and analysis of methods to address the DoD's most pressing technological challenges

### Features:

- Provides agile and scalable contracting services that are fast, flexible, and low cost
- Allows incremental funding for severable orders
- Provides up to a five year (60 month) period of performance
- Allows for all contract types, including hybrids (i.e., CPFF, FFP, FFP-LOE)
- Accommodates Classified and Unclassified services (up to Top Secret, compartmented and collateral)
- Accommodates CONUS and OCONUS requirements (including in-theater and contingency operations areas)
- Complies with Federal Government law and regulation compliance regarding small business contracting
- Utilizes a primarily Tradeoff/Best Value method for source selection
- Provides flexible terms to allow for the addition of new teaming partners at the TO level

### Benefits:

- Provides fully-assisted requirements package development support services
- Leverages available via the DTIC Online R&E Gateway database
- Designated as the preferred vehicle for DoD R&D requirements within its scope Office of the under Secretary of Defense preferred use letter
- Utilizes an Interservice Support Agreement (DD Form 1144) or Interagency Agreement General Terms and Conditions Section (FS Form 7600A) to satisfy the requirement for a support agreement

### Technical Focus Areas:

#### Defense Systems

Weapons Systems  
Autonomous Systems  
Survivability & Vulnerability  
RMQSI  
Advanced Materials  
Military Sensing  
Energetics  
Directed Energy  
Non-Lethal Weapons Information Operations  
C5ISR

#### Cybersecurity Information Systems

Cybersecurity  
Software Data Analysis  
Modeling & Simulation  
Knowledge Management Information Sharing

#### Homeland Security & Defense

Critical Infrastructure Protection  
Weapons of Mass Destruction  
Biometrics  
Medical  
Cultural Studies  
Alternative Energy  
CBRN Non-Laboratory

**Contract Issued by** | Air Force Installation Contracting Agency (AFICA/KD), Defense Technical Information Center (DTIC)

**Contract Fees** | FY23 (Provisional) Customer Shared Direct Cost (CSDC): .08%

**Contract Number** | FA8075-17-R\_0001

### Period of Performance

Base Period (3 years):	09/30/18 - 09/29/21
Option Period 1 (2 years):	09/30/21 - 09/29/23
Option Period 2 (4 years):	09/30/23 - 09/29/27
Optional 6-month Extension:	09/30/27 - 03/31/28

**Contract Ceiling** | \$28B multiple award, indefinite delivery/indefinite quantity (IDIQ) contract

Funding provided at the TO level valued at or below \$15M

## Why Team AIS:

Team AIS brings the depth, breath, and corporate strength of a large global company while providing the flexibility, focus, and responsiveness of a small business. Team AIS represents a business model that yields a robust and diverse set of capabilities and provides an inherently greater potential for innovation that individual companies often cannot produce. The diversity of our partners creates a synergy fueled by each partners' different perspectives and backgrounds.

**EXPERIENCE MANAGING LARGE AND COMPLEX CONTRACTS** - Team AIS has experience managing large, complex contracts in both technical scope and administration. These contracts span across multiple domains and competencies.

**QUALITY PROCESSES AND STANDARDS** - Team AIS members are certified ISO 9001:2015, ISO 20000-1:2018 and ISO 27001:2013, and appraised at Maturity Level 3 (ML3) for both Services and Development of the CMMI® Institute's Capability Maturity Model Integration (CMMI®). These standards affirm our commitment to quality and the successful delivery of cost savings, productivity, delivery, responsiveness, and customer satisfaction.

**TEAM COLLABORATION** - Team AIS utilizes a customized portal to manage the contract, which streamlines collaboration across the team of partners and subcontractors providing accurate, efficient, collaborative, and expeditious communications.
